The Country School House.

I do not know whether any of the present visitors to Washington call themselves country school teachers. Probably not, because Cuba is yet without country school houses. The system inaugurated under American auspices has gone as far in that direction as was possible, but there never was such a thing as a country school house in Cuba under the Spanish rule, and the William of the Washington of American town and country government, as the basis, the school system may be enlarged gradually so that in time every barrie, or township, will have its school. This would be something like the district schools in the rural regions of the states. It will not need to extend over a large area, because the families which thrive in the biokios or cabine of the countries in the landshop of the countries of the countrie

Not Lackling in Perseverance.

Coming back to the trachers again, I do not believe they will be found lacking in one essential element of success, which is persistence. It is the common mistake to assume that because the people of the Latin race are volatile they lack application or perseverence. Of the Cubans it can the common from Batavia, Mich. Robert C. Miss Louise Grace Elliott, twenty-six years old, whose parents live at Rumford, Me., died suddenly yesterday morning in her room at the house of Mrs. Mary li. Snyder, No. 1422 11th street northwest.
